Re: Well No. Barney Cockburn #1,
Sec. 15, T. 21 S., R. 23 E.,
Grand County, Utah

Dear Mr. Losey:

Our records indicate that you have not filed a Monthly Report of Operations for the months of August thru December, 1964 for the subject well. Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGCC-1b, (U. S. Geological Survey Form 9-331, "Sundry Notices and Reports on Wells"), or on company forms containing substantially the same information. We are enclosing forms for your convenience.

Your immediate attention is required in this matter.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

KATHY G. WARNER
RECORDS CLERK

Salt Lake City, Utah

INRE: Oil & Gas Lease
ML3684

Mr. Donald G. Prince
Economic Geographer
Sir:

In response to yours dated May 27th, 1965, I am at a loss to know just how to give you what you have asked for.

You will find that I did not have this lease when the well thereon was drilled. When I took over the lease, there was this one well which had been drilled, according to your records to a depth of around 385 feet. There also, was a well, as shown by the records in Geological Survey Bulletin 863, drilled back in 1930, by Utah Southern Oil Co., but I had nothing to do with that well, but one can find the log on Page 166 of the bulletin.

When I obtained this said lease, I deepened the one well which was only 385 feet deep to a depth of 597 feet. While I have no way knowing what the log would show up to the 385 foot depth, I think that the 385 foot depth could have been the Dakota formation. It being DT, apparently the well was abandoned at that depth. The formation from the 385 foot level was:

385 feet to 400 feet.
400 feet to 404 feet
404 feet to 597 feet
597 feet

A SAND - In my opinion the lower part of the Dakota.

Morrison shales

Part of the Morrison formation. This formation made Gas which measured at that time around 250,000 cubic feet of gas. I set 597 feet of 6 5/8 inch casing on the apparent zone and capped the same.

I have not drilled any well on this lease from top to bottom. I am hoping that this meager information will help you in what you want to know. If not let me know and I will try to get you the information you are after.

Please let me hear further on the matter, as I don't want to lose this lease.

Yours

Carl Losey

PS: If you still want a surveyor's plat from me, let me know and will attempt to get one.
